

DOE/IAFF RADIATION EMERGENCIES TRAINING

This course provides a fast-paced overview of essential training for health and safety protection when responding to radioactive materials incidents and hazardous materials emergencies. This course also provides refresher operations training, as well as in-depth training in radiation, to fire fighters who are currently trained to the National Fire Protection Association (NFPA) Standard for Professional Competence for Responders to Hazardous Materials (NFPA 472). All other interested emergency responders, professionals, building officials, and parties are welcome.

TOTAL TIME: 8 HOURS

RAD-0303 SCHEDULE
